# Learn biodiversity through Environmental Action For the community 2022-2024

# GENERAL INFORMATION

[Leaf Romana Video 2 2305](#)

**LEAF is a small-scale Erasmus+ partnership project through which an innovative methodology has been developed for teachers to improve their teaching skills in environmental education on the one hand , and to develop a set of competences such as critical thinking , problem solving , creativity and the ability to work with others in the classroom on the other hand.**

**Through the activities, students were involved in local community issues and became possible promoters of change by adopting behavioral changes towards nature conservation.**

# Activities

- 4 TRANSNATIONAL MEETINGS of the coordinators: 1 online and 3 face to face
- WE-LAB KIT - purchased and prepared for use by the target groups in the different phases of the project
- The HANDBOOK
- The ACADEMY LEAF Platform

## Leaf Academy

# RESULTS

## THE HANDBOOK AND THE COMPETENCE FRAMEWORK

- Teaching resource for high school science and biology teachers to guide them in designing and implementing hands-on learning-inspired initiatives on plant biodiversity. The manual combines theoretical contexts and reasoning with the practical parts carried out using the WE-LAB kit, a portable laboratory for analyzing solid and liquid samples.

# THE HANDBOOK MODULES

- **Module 1** - created by Energies2050, France:

**Climate change and urban biodiversity**

- **Module 2** - created by Platon Schools, Greece:

**Natural protected areas**

- **Module 3** - created by CNME, Romania

**Urban parks and forests**

- **Module 4** - created by LinkGroup, Serbia:

**Biodiversity and agriculture**

- **Module 5** - created by Dlearn, Italy:  
**Boosting digital skills of teachers for better communication and collaboration**

- **Module 6** - created by PASBS, Croatia:

**Cooperation with the local community**

# Platform ACADEMY LEAF

- An open online environment, on the Moodle platform, which is useful for middle and high schoolteachers to be harmonized with the Handbook. It contains a set of complementary resources , such as activity proposals, project concepts and strategies, templates, assessment worksheets and digital resources , provided in a variety of formats.
